

JPS 2016-2017 STUDENT HANDBOOK

Welcome to the Jonesboro School District!

The Jonesboro School District faculty and staff extend a sincere welcome to you. We are pleased you have elected to be a part of our district.

Jonesboro is well known and admired for the quality of its education. Our schools provide a quality instructional program which is designed to help every child reach his/her maximum potential. We have high expectations of ourselves and we extend these same expectations to you. In the Jonesboro District, ***Excellence is our standard – not our goal – for every child.***

We invite you to become truly involved in our district. We encourage all parents and guardians to be active partners in their child's education. Educating our students has always been and will continue to be a collaborative effort between school and home. We also encourage you to learn more about the great things happening in our schools on a daily basis. You will be truly inspired by our many wonderful students, teachers, and administrators.

Your child has been issued a Student Handbook for the upcoming year as required by the State of Arkansas. Our handbook can also be found on the JPS District website. The handbook contains information about the rules, regulations and policies of the school district. While it is impossible to list in the handbook all of the rules and guidelines for student and staff use, we believe the contents of this handbook will help serve as a guide and define rules and regulations as required by federal and state laws. We therefore ask that you read this handbook carefully and indicate that you have done so by signing and returning the required signature page.

On behalf of the Superintendent's office, thank you for placing your trust in the Jonesboro School District.

Sincerely,

Dr. Kim Wilbanks, Superintendent

JPS PARENTAL/COMMUNITY INVOLVEMENT – DISTRICT Policy 6.11

Jonesboro Public Schools (JPS) recognizes the need for strong parental involvement in the educational process of our students. To support the goal to educate all students effectively, JPS and parents must work together as

knowledgeable partners. JPS fosters and supports parent involvement by coordinating a comprehensive parental involvement program that offers parents multiple opportunities to be involved in the education of their children. To view the complete parental involvement plan, please visit the district's website or contact the district office to request a copy.

The district will assist schools in developing parental involvement policies and programs to improve student achievement. District staff will assist building staff in devising appropriate methods of implementing Academic Improvement Plans (AIPs) for students scoring below proficiency on state assessments and explaining the law and consequences to parents of students not participating in AIPS. The district will assist schools in providing timely communication and providing parents on-line access to grades and attendance. The district will provide training annually for volunteers. The district will provide opportunities for joint collaboration with parents, community members, teachers, etc. to offer input in the development of JPS and school plans

The district will insure that Title I schools: (1) provide assistance to parents in understanding content and how to monitor their children's progress; (2) provide materials and training to help parents work with their children to improve academic achievement; (3) educate teachers, principals and other staff in the importance of effective communication, value and utility of contributions of parents; (4) coordinate and integrate parent involvement programs and activities; (5) ensure that information related to schools and parent programs is sent to parents to the extent practical in a language parents (including disabled parents) can understand; (6) and, provide other reasonable support for parental involvement activities as parents may request.

JPS will schedule two Parent-Teacher conference days. Beginning in 6th grade, students will attend conferences to discuss opportunities and requirements for student success (i.e., course requirements, the Smart Core/Core Curriculum, college requirements).

JPS PARENTAL/COMMUNITY INVOLVEMENT – SCHOOL Policy 6.12

A child's education is the responsibility shared by the school and parents. Each school in JPS develops its own parental involvement plan and provides many opportunities for parents to be involved in the education of their children to improve student achievement. Copies of the parent involvement plan may be

viewed on the school's website or a copy of the plan may be obtained from the Library-Media Specialist on each campus.

Each school will:

- Have a parent center with a parent facilitator. Materials will be available for parents to use to support their children's achievement.
- Offer meaningful, regular, two-way communication between parents and the school
- Conduct parent-teacher conferences a minimum of two times each year
- Coordinate opportunities for parents to volunteer, including a survey to determine their interests and volunteer resource book
- Distribute packets including information about grade-level/course learning expectations and ways parents may help their children improve academic performance
- Share information about activities planned throughout the school year to encourage parental involvement
- Use e-mails, Alert Now electronic message system, newsletters, phone calls, notes, websites, etc. to communicate with parents
- Provide parents materials including parenting books, magazines and other information in the parent center in each school's library-media center

STUDENT ORGANIZATIONS/EQUAL ACCESS - Policy 4.12

- A. Non-curriculum-related secondary school student organizations wishing to conduct meetings on school premises during non-instructional time shall not be denied equal access on the basis of the religious, political, philosophical, or other content of the speech at such meetings. Hazing as defined by law, is forbidden in connection with initiation into, or affiliation with, any student organization, extracurricular activity, or sport program. RELIGION IN THE SCHOOLS – Policy 5.10

- A. The First Amendment of the Constitution states that “Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof...” As the Supreme Court has stated (*Abington School District v. Schempp*, 374 U.S. 203) the Amendment thus, “embraces two concepts—freedom to believe and freedom to act. The first is absolute but, in the nature of things, the second cannot be.” Therefore, it is the board’s policy that the school system, as an agency of the government, shall be neutral in matters regarding religion and will not engage in any activity that either advocates or disparages religion. The district shall assume no role or responsibility for the religious training of any student.
- B. The need for neutrality does not diminish our school system’s educational responsibility to address the historical role of religion in the development of our culture. Since we live in a diverse society, the district’s goal shall be to address the subject of religion objectively in such a way that it promotes an understanding of, and tolerance for, each other’s religious or non-religious views.
- C. Discussions concerning religious concepts, practices, or disciplines are permissible when presented in a secular context in their relation to an inclusive study of religion or to the study of a particular region or country. The discussions shall be such that they are objective and academically informational and do not advocate nor denigrate any particular form of religious practice.

- D. Accommodation will be considered for those portions of instructional activities in the schools that unduly burden a student's sincere religious belief provided such accommodation doesn't amount to a significant change in curriculum, program, or course of instruction and when it is possible that a substitution of equally rigorous material that advances the same instructional goals can be arranged. Parents and students are advised that such accommodations are easier to grant when the objection is to non-state mandated Framework material than if the material is required by the frameworks.
- E. A student or the student's parent can request the student's teacher accommodate the student's objection based on a religious belief to an instructional activity. Any such request must be made at least 25 school days prior to the assignment's due date. Any objection must be raised in accordance with this policy's requirements or it will not be considered.
- F. The teacher in charge of each classroom may, at the opening of school each day, conduct a brief period of silence with the participation of all students in the classroom who desire to participate.
- G. Students and employees may engage in personal religious practices, such as prayer, at any time, and shall do so in a manner and at a time so that the educational process is not disrupted.

<p>PRIVACY OF STUDENTS' RECORDS/DIRECTORY INFORMATION - Policy 4.13</p>
--

- A. Except when a court order regarding a student has been presented to the district to the contrary, all students' education records are available for inspection and copying by the parents or guardian of any student who is under the age of eighteen (18). At the age of eighteen (18), the right to inspect and copy a student's records transfers to the student. A student's parent or the student, if over the age of 18, requesting to review the student's records will be allowed to do so within no more than forty-five (45) days of the request. The district forwards education records, including disciplinary records, to schools that have requested them in which the student seeks or intends to enroll, or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

- B. The district shall receive written permission before releasing education records to any agency or individual not authorized by law to receive and/or view the education records without prior parental permission. The district shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable information from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interests. A personal record kept by a school staff member is not considered an education record if it meets the following tests.
1. it is in the sole possession of the individual who made it;
 2. it is used only as a personal memory aid; and
 3. information contained in it has never been revealed or made available to any other person, except the maker's temporary substitute.

For the purposes of this policy a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

For the purposes of this policy a school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility, contracted duty or duty of elected office.

In addition to releasing PII to school officials without permission, the district may disclose PII from the education records of students in foster care placement to the student's caseworker or to the caseworker's representative without getting prior consent of the parent (or the student if the student is over eighteen (18)). For the district to release the student's PII without getting permission:

- the student must be in foster care;
- the individual to whom the PII will be released must have legal access to the student's case plan; and
- The Arkansas Department of Human Services or a sub-agency of the Department must be legally responsible for the care and protection of the student.

The district discloses PII from an education record to appropriate parties, including parents, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The superintendent or designee shall determine who will have access to and the responsibility for disclosing information in emergency situations.

When deciding whether to release PII in a health or safety emergency, the district may take into account the totality of the circumstances pertaining to a threat to the

health or safety of a student or other individuals. If the district determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

- C. For purposes of this policy, the Jonesboro School District does not distinguish between a custodial and non-custodial parent or a non-parent such as a person acting in loco parentis or a foster parent. Unless a court order restricting such access has been presented to the district to the contrary, the fact of a person's status as parent or guardian, alone, enables that parent or guardian to review and copy his child's records.
- D. If a court order exists which directs that a parent not have access to a student or his records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file-marked copy of such order to the building principal and the superintendent. The school will make good-faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parents or guardians, their attorneys and the court which issued the order.
- E. A parent or guardian does not have the right to remove any material from a student's records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, disciplinary rulings, disability placements, or other such determinations, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student's file must be initiated with the building principal, with an appeal available to the superintendent or his designee. The challenge shall clearly identify the part of the student's record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as request, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will be provided information regarding the hearing procedure when notified of the right to a hearing.
- F. Unless the parent or guardian of a student (or student, if above the age of eighteen [18]) objects, directory information about a student may be made available to the public, military recruiters, postsecondary educational institutions, prospective employers of those students, as well as school publications such as annual yearbooks and graduation announcements. "Directory information" includes, but is not limited to, a student's name, address, telephone number, electronic mail address, photograph, date and place of birth, dates of attendance, his/her placement on the

honor roll (or the receipt of other types of honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the district. Directory information also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for the purposes of accessing or communicating in electronic systems and a student ID number or other unique personal identifier that is displayed on a student's ID badge, provided the ID cannot be used to access gain to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password or other factor known or possessed only by the authorized user. A student's name and photograph will only be displayed on the district or school's web page(s) after receiving written permission from the student's parent or student if over the age of 18.

- G. The form for objecting to making directory information available is located in the student packet and must be completed and signed by the parent or age-eligible student and filed with the building principal's office no later than ten (10) school days after the beginning of each school year or the date the student is enrolled for school. Failure to file an objection by that time is considered a specific grant of permission. The district is required to continue to honor any signed-opt out form for any student no longer in attendance at the district. The right to opt out of the disclosure of directory information under Family Educational Rights and Privacy Act (FERPA) does not prevent the district from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled.

Parents and students over the age of 18 who believe the district has failed to comply with the requirements for the lawful release of student records may file a complaint with the U.S. Department of Education at Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, D.C. 20202.

<p>STUDENT PUBLICATIONS AND THE DISTRIBUTION OF LITERATURE - Policy 4.14</p>

- A. **Student Publications** --All publications that are supported financially by the school or by use of school facilities, or are produced in conjunction with a class shall be considered school-sponsored publications. School publications do not provide a forum for public expression. Such publications, as well as the content of student expression in school-sponsored activities, shall be subject to the editorial control of the district's administration whose actions shall be reasonably related to legitimate pedagogical concerns and adhere to the following limitations.
1. Advertising may be accepted for publications that does not condone or promote products that are inappropriate for the age and maturity of the audience or that endorse such things as tobacco, alcohol, or drugs.
 2. Publications may be regulated to prohibit writings which are, in the opinion of the appropriate teacher and/or administrator, grammatically incorrect, poorly written, inadequately researched, biased or prejudiced, vulgar or profane, or unsuitable for immature audiences.
 3. Publications may be regulated to refuse to publish material which might reasonably be perceived to advocate drug or alcohol use, irresponsible sex, or conduct otherwise inconsistent with the shared values of a civilized social order, or to associate the school with any position other than neutrality on matters of political controversy.
 4. Prohibited publications include:
 - a. Those that are obscene as to minors;
 - b. Those that are libelous or slanderous, including material containing defamatory falsehoods about public figures or governmental officials, which are made with knowledge of their falsity or reckless disregard of the truth;
 - c. Those that constitute an unwarranted invasion of privacy as defined by state law,
 - d. Publications that suggest or urge the commission of unlawful acts on the school premises;
 - e. Publications which suggest or urge the violation of lawful school regulations;
 - f. Hate literature that scurrilously attacks ethnic, religious, or racial groups.

- B. Student Publications on School Web Pages** -- Student publications that are displayed on school web pages shall follow the same guidelines as listed above plus they shall
1. Not contain any non-educational advertisements. Additionally, student web publications shall;
 2. Adhere to the restrictions regarding use of Directory Information as prescribed in Policy 4.13 including not using a student's photograph when associated with the student's name unless written permission has been received from the student's parent or student if over the age of 18.
 3. State that the views expressed are not necessarily those of the school board or the employees of the district.
- C. Student Distribution of Non-school Literature Publications, and Materials** – A student or group of students who distribute ten (10) or fewer copies of the same non-school literature, publications, or materials (hereinafter “non-school materials”), shall do so in a time, place, and manner that does not cause a substantial disruption of the orderly education environment. A student or group of students wishing to distribute more than ten (10) copies of non-school materials shall have school authorities review their non-school materials at least three (3) school days in advance of their desired time of dissemination. School authorities shall review the non-school materials, prior to their distribution and will bar from distribution those non-school materials that are obscene, libelous, pervasively indecent, or advertise unlawful products or services. Material may also be barred from distribution if there is evidence that reasonably supports a forecast that a substantial disruption of the orderly operation of the school or educational environment will likely result from the distribution. Concerns related to any denial of distribution by the principal shall be heard by the superintendent or his/her designee, whose decision shall be final. The assistant superintendent shall review non-school publications prior to their distribution and will bar from distribution those materials that are obscene, libelous, pervasively indecent, or advertise unlawful products or services. Material may also be barred from distribution if there is evidence that reasonably supports a forecast that disruption will likely result from the distribution.
- D.** The school principal or designee shall establish reasonable regulations governing the time, place, and manner of student distribution of non-school materials. The regulations shall:
1. Be narrowly drawn to promote orderly administration of school activities by preventing disruption and may not be designed to stifle expression;
 2. Be uniformly applied to all forms of non-school materials;
 3. Allow no interference with classes or school activities;
 4. Specify times, places, and manner where distribution may and may not occur;

5. Not inhibit a person's right to accept or reject any literature distributed in accordance with the regulations.
 6. Students shall be responsible for the removal of excess literature that is left at the distribution point for more than three (3) days and are responsible for picking up any materials thrown on school grounds.
- E. The superintendent, along with the student publications advisors, shall develop administrative regulations for the implementation of this policy. The regulations shall include definitions of terms and timelines for the review of materials.

CONTACT WITH STUDENTS WHILE AT SCHOOL- Policy 4.15

- A. Parents wishing to speak to their children during the school day shall register first with the office. If there is any question concerning the legal custody of the student, the custodial parent shall present documentation to the principal or the principal's designee establishing the parent's custody of the student. It shall be the responsibility of the custodial parent to make any court ordered "no contact" or other restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file-marked court order. Without such a court order on file, the school will release the child to either of his/her parents. Non-Custodial parents who file with the principal a date-stamped copy of current court orders granting visitation may eat lunch, volunteer in their child's classroom, or otherwise have contact with their child during school hours and the prior approval of the school's principal. Such contact is subject to the limitations outlined in Policy 4.16, Policy 6.5, and any other policies that may apply. Arkansas law provides that in order to avoid continuing child custody controversies from involving school personnel and to avoid disruptions to the educational atmosphere in the district's schools, the transfer of a child between his/her custodial parent and non-custodial parent, when both parents are present, shall not take place on the school's property on normal school days during normal hours of school operation. Unless a valid no-contact order has been filed with the student's principal or the principal's designee, district employees shall not become involved in disputes concerning whether or not the parent was supposed to pick up the student on any given day.
- B. **CONTACT BY LAW ENFORCEMENT, SOCIAL SERVICES, OR BY COURT ORDER** State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Department of Arkansas State Police, may interview students without a court order for the purpose of investigating

suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a “72-hour hold” without first obtaining a court order. Except as provided below, other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant. If the district makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal’s designee shall make a good faith effort to contact the student’s parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis identified on student enrollment forms. The principal or the principal’s designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, custodian, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Department of Arkansas State Police, or an investigator or employee of the Department of Human Services.

- C. In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student’s parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state’s social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after hours telephone number.
- D. Contact by Professional Licensure Standards Board Investigators
Investigators for the Professional Licensure Standards Board may meet with students during the school day to carry out the investigation of an ethics complaint.

HISTORY BOE: ADOPTED JUNE 10, 2008

SECTION 2: ATTENDANCE

ABSENCES - Policy 4.7

If any student's Individual Education Program (IEP) or 504 Plan conflicts with this policy, the requirements of the student's IEP or 504 Plan take precedence.

Education is more than the grades students receive in their courses. Important as that is, students' regular attendance at school is essential to their social and cultural development and helps prepare them to accept responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction which results in higher student achievement.

Students shall not be absent, as defined in this policy more than six (6) days in a semester. When a student has three (3) absences, his/her guardian, or person in loco parentis shall be notified that the student has missed half the allowable days for the semester. Notification shall be by telephone by the end of the school day in which such absence occurred or by regular mail with a return address sent no later than the following school day. Upon his/her return to school, the student will provide documentation regarding the absence.

Whenever a student exceeds six (6) absences in a semester, the district shall notify the prosecuting authority and the parent, guardian, or person in loco parentis shall be subject to a civil penalty as prescribed by law.

Students with six (6) absences in a course in a semester shall not receive credit for that course. If the student fails to receive credit for a sufficient number of courses and at the discretion of the principal after consultation with persons having knowledge of the circumstances of the absences, the student may be denied promotion or graduation. Excessive absences, however, shall not be a reason for expulsion or dismissal of a student.

It is the Arkansas General Assembly's intention that students having excessive absences due to illness, accident, or otherwise unavoidable reason be given assistance in obtaining credit for their courses. Therefore, any time prior to when a student exceeds the number of allowable absences (unless unable to do so due to unforeseen circumstances), the student, or his/her parent, guardian, or person in loco parentis may petition the school or district's administration for special arrangements to address the student's absences. If formal arrangements are granted, they shall be formalized into a written agreement which will include the conditions of the agreement and the consequences for failing to fulfill the agreement's requirements. The agreement shall be signed by the student, the

student's parent, guardian, or person in loco parentis, and the school or district administrator or designee. If a student's excessive absence is due to an unforeseen circumstance, the district may accept a doctor's note for a student's excessive absence.

Days missed due to in-school or out-of-school suspension shall not count toward the excused number of days absent.

Excused Absences

Excused absences are those where the student was on official school business or when the absence was due to one of the following reasons and the student brings a written statement upon his/her return to school from the parent, guardian, person in loco parentis, or appropriate government agency stating such reason:

1. The student's illness or when attendance could jeopardize the health of other students;
2. Death or serious illness in their immediate family;
3. Observance of recognized holidays observed by the student's faith;
4. Attendance at an appointment with a government agency;
5. Exceptional circumstances with prior approval of the principal;
6. To participate in an FFA, FHA, or 4-H sanctioned activity;
7. To participate in the election poll workers program for high school students;
8. To serve as a page for a member of the General Assembly;
9. To visit his/her parent or legal guardian who is a member of the military and has been called to active duty, is on leave from active duty, or has returned from deployment to a combat zone or combat support posting. The number of additional excused absences shall be at the discretion of the superintendent or designee.
10. For purposes pre-approved by the school administration such as visiting prospective colleges, to obey a subpoena, or to attend at an appointment with a government agency.
11. Absences granted, at the superintendent's discretion, to seventeen (17) year-old students who join the Arkansas National Guard while in the eleventh grade to complete basic training between grades eleven (11) and twelve (12).
12. Absences for students excluded from school by the Arkansas Department of Health during a disease outbreak because the student has an immunization waiver or whose immunizations are not up to date.

Unexcused Absences

Absences not defined above or not having an accompanying written statement from the parent, guardian, person in loco parentis, or appropriate government agency stating such reason presented upon the student's return to school, may be considered as unexcused absences. At the discretion of the principal after consultation with persons having

knowledge of the circumstances of the unexcused absences, the student may be denied promotion or graduation. Excessive absences shall not be a reason for expulsion or dismissal of a student.

The district shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to suspend the former student's operator's license unless he/she meets certain requirements specified in the code.

Applicants for an instruction permit or for a driver's license by persons less than eighteen (18) years old on October 1 of any year are required to provide proof of a high school diploma or enrollment and regular attendance in an adult education program or a public, private, or parochial school prior to receiving an instruction permit. To be issued a driver's license, a student enrolled in school shall present proof of a "C" average for the previous semester or similar equivalent grading period for which grades are reported as part of the student's permanent record.

TARDIES - Policy 4.9

- A. Promptness is an important character trait that district staff is encouraged to model and help develop in our schools' students. At the same time, promptness is the responsibility of each student. Students who are late to class show a disregard for both the teacher and their classmates which compromises potential student achievement.
- B. Each school shall establish a uniform procedure in which to discipline students with respect to tardiness. Information related to each school can be found in the School Procedure and Guidelines Manual.
- C. Tardiness to school in the morning is disruptive, and repeated tardiness cannot be tolerated. When excessive tardiness is a problem, a team of school officials and the student and parent will meet to develop a plan to alleviate the problem.
- D. Arkansas Department of Education attendance guidelines require that students be present six (6) instructional hours per day. Students checking in thirty (30) minutes late, leaving thirty (30) minutes early in the afternoon, or missing thirty (30) minutes of instructional time during the day will be counted ½ day absent. Any student missing 3 ½ hours or more of instructional time during a day will be counted absent for the day.

SECTION 3: ACADEMICS

GRADING– Policy 5.15

- A. Parents or guardians shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by

parents, guardians, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reasons for difficulties and shall develop, cooperatively with the parents, a plan for remediation which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine-week grading period to keep parents/guardians informed of their student's progress. Parent-teacher conferences will be scheduled two times per year.

- B. The evaluation of each student's performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students' grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.
- C. The grades of a child in foster care shall not be lowered due to an absence from school due to:
 - 1. A change in the child's enrollment;
 - 2. The child's attendance at a dependency-neglect court proceeding; or
 - 3. The child's attendance at court-ordered counseling or treatment.
- D. The grading scale for all schools in the district shall be as follows.

A	=	100	–	90
B	=	89	–	80
C	=	79	–	70
D	=	69	–	60
F	=	59	and	below

Elementary buildings K - 6, may incorporate a standards based reporting system in addition to or in place of the numeric grading scale.
- E. For the purpose of determining grade point averages, the numeric value of each letter grade shall be:

A	=	4 points
B	=	3 points
C	=	2 points
D	=	1 point
F	=	0 points
- F. The grade point values for Advanced Placement (AP), International Baccalaureate (IB), and approved honor courses shall be one (1) point greater than for regular courses with the exception that an F shall still be worth zero (0) points.
- G. The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district. A complete set of guidelines is available in the Jonesboro Public School Policy Manual.

H. Report cards will be sent home at the end of each nine-week grading period. Progress reports will be sent home at the mid-point of each grading period.

I. Early Graduation

The Jonesboro School District does not encourage attempts to complete a course of study for high school graduation in less than four full academic years. However, the Board will accept modification of the four-year attendance requirement for high school graduation provided the student has satisfactorily completed the requirements for graduation as set forth by the State Board of Education and the Jonesboro School District. Students planning to graduate early must notify the district of their decision in a timely manner. In order to graduate early, a student must complete seven (7) semesters or three and ½ years of high school attendance and have successfully completed the terms of the Jonesboro School District Graduation Requirements.

The following procedures must be followed when a student requests early graduation:

1. It is recommended that students indicate their intentions to a counselor any time during their sophomore year.
 - a. A cumulative grade point average of 3.0 is recommended to apply for early graduation.
2. The student and parents/guardians will set up a conference with the counselor to complete the following:
 - a. Academic credit check
 - b. Document reasons for early graduation that align with post-high school plans
 - c. Set up a tentative final schedule
 - d. Give parental/guardian permission form for early graduation, which must be completed and returned to the principal
 - e. Instruct student to have parent/guardian and student request conference with counselor, principal, student and parent/guardian after the permission form is completed
3. A conference with the principal is mandatory. The principal will approve or disapprove the student request for early graduation. If the student disagrees with the recommendation of the principal, the request may be appealed to the superintendent.

J. Repeating a Class to Improve Grades

Any student in grades 10-12 who makes an unsatisfactory grade in an academic course may retake the course one time to improve the grade under the following stipulations:

1. The enrollment in the classroom does not exceed twenty-five students.
2. The course title or the course content has not changed significantly since the course was taken by the student.
3. The student must retake the course within one calendar year after receiving the unsatisfactory grade.
4. Students will not be allowed to retake a course after they have progressed to a higher level course in the same area.
5. Students will not be allowed to take higher level and lower level courses in the same subject area simultaneously.
6. Students with a grade of “B” are not allowed to repeat a class for a higher grade.

Exceptions: Students needing a course to meet minimum graduation standards will be allowed to take or retake a course with the approval of the principal.

<p>ATTENDANCE REQUIREMENTS FOR STUDENTS IN GRADES 9 - 12– Policy 4.44</p>
--

- A. Students in grades nine through twelve (9-12) are required to schedule and attend at least 360 minutes of regularly scheduled class time daily. Part of this requirement may be met by students taking post-secondary courses. Eligible students’ enrollment and attendance at a post-secondary institution shall count toward the required weekly time of school attendance. Each credit hour shall count as three (3) hours of attendance time. This means a three (3) hour course shall count as nine (9) hours of the weekly required time of attendance.
- B. Students may be assigned to no more than one (1) class period each day for a study hall that the student shall be required to attend and participate in for the full period. Such study halls are to be used for the purposes of self-study or for organized tutoring which is to take place in the school building.
- C. Students may be assigned to no more than one (1) class period each day for organized and scheduled student extracurricular classes that the student shall be required to attend and participate in for the full class period. Extracurricular classes related to a seasonal activity shall meet for an entire semester whether or not the season ends prior to the end of the semester. Students must attend and participate in the class for the entire semester in order to receive credit for the course. For the

purpose of this policy, extracurricular classes is defined as school sponsored activities which are not an Arkansas Department of Education approved course counting toward graduation requirements or classes that have not been approved by the Arkansas Department of Education for academic credit. Such classes may include special interest, fine arts, technical, scholastic, intramural, and interscholastic opportunities.

- D. Enrollment and attendance in vocational-educational training courses, college courses, school work programs, and other department-sanctioned educational programs may be used to satisfy the student attendance requirement even if the programs are not located at the public schools. Attendance in such alternative programs must be pre-approved by the school's administration. The district shall strive to assign students who have been dropped from a course of study or removed from a school work program job during the semester into another placement or course of study. In the instances where a subsequent placement is unable to be made, the district may grant a waiver for the student for the duration of the semester in which the placement is unable to be made.
- E. In rare instances, students may be granted waivers from the mandatory attendance requirement if they would experience proven financial hardships if required to attend a full day of school. For the purpose of this policy, proven financial hardships is defined as harm or suffering caused by a student's inability to obtain or provide basic life necessities of food, clothing, and shelter for the student or the student's family. The superintendent shall have the authority to grant such a waiver, on a case-by-case basis, only when convinced the student meets the definition of proven financial hardships.
- F. In any instance where a provision of a student's Individual Education Plan (IEP) conflicts with a portion(s) of this policy, the IEP shall prevail.

<p>SMART CORE CURRICULUM AND GRADUATION REQUIREMENTS FOR THE CLASS OF 2017 – Policy 4.45</p>

- A. All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are 18 years of age or older, sign a Smart Core Waiver Form to not participate. While Smart Core is the default option, both a Smart Core Informed Consent Form and a Smart Core Waiver Form will be sent home with students prior to their enrolling in the seventh grade, or when a 7-12 grade student enrolls in the district for the first time and there is not a signed form in the student's permanent record. Parents must sign one of the forms and return it to the school so it can be placed in the students' permanent records. This policy is to be included in student handbooks for grades 6-12 and both students and parents must

sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the requirements of their IEP (when applicable) to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the time they are required to sign the consent forms.

- B. While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum providing they would be able to complete the required course of study by the end of their senior year. Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.
- C. This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents at least every other year to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.
- D. Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each. This may be accomplished through any or all of the following means.
 - 1. Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
 - 2. Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter;
 - 3. Discussions held by the school's counselors with students and their parents; and/or
 - 4. Distribution of a newsletter(s) to parents or guardians of the district's students.
- E. Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.

Parents or guardians shall be kept informed concerning the progress of their student(s). Notice of a student’s possible retention or required retaking of a course shall be included with the student’s grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student’s academic success.

Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferrable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public school entities.

- B. Promotion or retention of students, or their required retaking of a course shall be primarily based on the following criteria.
 - 1. Grade 7 – 8 – To be promoted, students must pass at least three core courses (mathematics, English, science and social studies) including both mathematics and English. Students failing English or mathematics must attend summer school for promotion. Students who fail science or social studies are recommended for summer school, but must pass at least one of these subjects to promote.

Military personnel, such as ROTC cadets, acting in the course of their official duties are accepted.

- B. A weapon is defined as any firearm, knife, gun, pistol, revolver, shotgun, BB gun, rifle, pellet gun, razor, ice pick, dirk, box cutter, num-chucks, pepper spray, mace, or other noxious spray, explosive, Taser or other instrument that uses electrical current to cause neuromuscular incapacitation, or any other instrument or substance capable of causing bodily harm. For the purpose of this policy, “firearm” means any device designed, made, or adapted to expel a projectile by the action of an explosive or any device readily convertible to that use.

- C. Possession means having a weapon, as defined in this policy, on the student’s body or in an area under his/her control. If, a student discovers prior to any questioning or search by any school personnel, that he/she has accidentally brought a weapon, other than a firearm, to school on his/her person, in a book bag/purse, or in his/her vehicle on school grounds, and the student informs the principal or a staff person immediately, the student will not be considered to be in possession of a weapon unless it is a firearm. The weapon shall be confiscated and held in the office until such time as the student’s parent/legal guardian shall pick up the weapon from the school’s office. Repeated offenses are unacceptable and shall be grounds for disciplinary action against the student as otherwise provided for in this policy.

- D. Except as permitted in this policy, students found to be in possession on the school campus of a weapon shall be recommended for expulsion for a period of not less than one year. The superintendent shall have the discretion to modify such expulsion recommendation for a student on a case-by-case basis. Parents or legal guardians of students expelled under this policy shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a weapon on school property. Parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to readmitting the student. Parents or legal guardians of a student enrolling from another school after the expiration of an expulsion period for a weapon policy violation shall also be given a copy of the current laws regarding the possibility of parental responsibility

for allowing a child to possess a weapon on school property. The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

- E. The mandatory expulsion requirement for possession of a firearm does not apply to a firearm brought to school for the purpose of participating in activities approved and authorized by the district that include the use of firearms. Such activities may include ROTC programs, hunting safety or military education, or before- or after-school hunting or rifle clubs. Firearms brought to school for such purposes shall be brought to the school employee designated to receive such firearms. The designated employee shall store the firearms in a secure location until they are removed for use in the approved activity.
- F. The district shall report any student who brings a firearm or weapon to school to the criminal justice system or juvenile delinquency system by notifying local law enforcement.

**DRUGS AND ALCOHOL TESTING - Policy 4.24
EFFECTIVE: 2008**

- A. The Jonesboro School District recognizes the use of mood-altering chemicals as a significant health problem for many students, resulting in negative effects on behavior, learning, and the total development of each individual. The misuse and abuse of mood-altering chemicals for some students affect academic growth, achievement, activities, participation and development of related skills, and relationships with significant people in their lives.
- B. The purposes of chemical screenings by the Jonesboro School District are:
 1. To emphasize concerns for the health of students in areas of safety
While participating in activities, and the long-term physical and emotional effects of chemical use on their health.
 2. To work with parents to assist in keeping their children free of mood-altering chemicals.
 3. To promote a sense of order and discipline among students.
 4. To confirm and support the existing state laws which restrain the use of such mood-altering chemicals.
 5. To establish standards of conduct for those students who are leaders.

6. To assist students who desire to resist peer pressure directing them toward the use of mood-altering chemicals.
7. To assist students in securing assistance or evaluation regarding their use of mood-altering chemicals.
8. Drugs which may be screened include, but are not limited to, the following:
9. Amphetamines, Barbiturates, Benzodiazepines, Cocaine, Methaqualone, Opiates, PCP, THC (Cannabinoids)

C. SUPERVISED URINE COLLECTION AND CHAIN OF PROCEDURE FOR SUBSTANCE ABUSE SCREENING

"Testing," as referred to throughout this policy, encompasses all scientifically-valid analyses procedures used by certified medical facilities which test for the presence of drugs. Such tests include, but are not limited to, urinalysis and blood testing. All testing will be performed in compliance with National Institute on Drug Abuse and College of American Pathologists criteria.

The following precautions should be taken, as appropriate, at the collection site:

1. Positively identify the examinee.
2. Use a dedicated washroom and process only one person at any given time.
3. Blue or green toilet bowl cleaner will be used to prevent dilution of sample with toilet water and water faucet will be turned off.
4. Freshly voided specimen temperature will be checked by temperature gauge on container.
5. Examinee will remove outer garments (jackets, coats) and pocket items before entering the washroom. This will prevent examinee from carrying in a substitute specimen or other chemicals and solutions used to adulterate specimens. However, the examinee may retain his/her wallet. Any garments removed should not be searched.
6. The labels for specimen bottles must have all information completed before testing.
7. Extra specimen containers are not to be left in the washroom.
8. Place the tamper-evident tape over the bottle cap and label in the presence of the examinee.
9. Have the examinee and witness sign the chain-of-custody form and have the examinee initial the specimen label.
10. All collected specimens must be delivered at once to the person assigned to deliver specimen to the laboratory.

Note: Any medication or prescribed drugs should be brought to the attention of the testing agent.

D. METHOD

1. Coaches and sponsors shall survey participants for all activities at the beginning of the fall semester. These students will be placed in the drug bank/pool for random testing throughout the year. Therefore, members from all activities may be equally tested at any point during the school year.
2. Any student who wishes to participate in an activity but was not entered into the original pool for the first fall testing must be entered into the pool and screened before participation in his/her respective activity.
3. All students interested in any sport/activity during the school year must sign a consent form for drug screening before participating.
4. Screening will be done on a random basis.

E. CONSEQUENCES OF A POSITIVE TEST

First Violation: The principal, athletic director, head coach of the sport in which the athlete is competing, and the team physician or family doctor, whichever is applicable, shall be notified each time a student athlete receives a positive drug screen. The head coach will then communicate to the parents of the student athlete that a positive screen has been obtained.

The student athlete shall be suspended from athletic contests for a period of ten (10) school days. Five (5) days of the suspension will be forgiven if parent provides documentation that the student is receiving appropriate counseling from a licensed professional drug rehabilitation counselor at parents' expense. The student will not be allowed to resume athletic participation until a medical release is supplied to the head coach. After a positive screen, the student will be screened each time a screening is administered until athletic eligibility has expired.

Note: Refusal by an athlete to take a drug test may constitute a positive screen.

Second Violation: After confirmation of the second violation, the athlete shall lose eligibility for a period of thirty percent (30%) of the contests of the season in which he/she is participating. The student athlete will not be allowed to practice or participate in any athletic contest during this period. If the season in which the athlete is participating at the time lasts less than 30% of the scheduled contests, the athlete will be required to continue to lose eligibility for the next sport in which he/she participates, until the full 30% of the scheduled contests has been attained. If the athlete participates in only one sport, the suspension will carry over until the next school year, provided he/she is an underclassman. The student shall be recommended to receive counseling at his/her own expense from a licensed professional drug rehabilitation counselor.

Third Violation: After confirmation of the third violation, the athlete shall lose eligibility for one calendar year from the date of the third violation. The student shall be recommended to receive counseling at his/her own expense from a licensed professional drug rehabilitation counselor.

Subsequent Violations: Any subsequent positive screening after the third violation will result in permanent expulsion from any sports program of the Jonesboro Public Schools. Screening will begin at the seventh (7th) grade level and sanctions shall be accumulated through the twelfth (12th) grade.

Note: Positive test results shall not be provided to the police or any other law enforcement agency.

Exceptions: A single test may be requested by a coach, the athletic director, or an administrator for reasonable suspicion.

Steroids or similar chemicals could take more than twenty (20) days to leave a student's system. In this case, a doctor's written opinion is requested and is at the student's expense.

If, prior to the first offense, an athlete voluntarily acknowledges he/she has a chemical problem, such athlete will not be held in violation if he/she completes a successful drug rehabilitation program. At this point, the student will be subject to screening each time a test is administered until athletic eligibility has expired

Range: All athletes, grades 7 through 12, may be tested.

Drug Counseling: Should counseling be attained, it will be the responsibility of the parent(s) to acquire professional help from an appropriate agency. The Jonesboro Public Schools will not assume any financial responsibility for rehabilitation.

F. Students Who Operate Motor Vehicles and Maintain Parking Privileges on JHS Campus

Students who operate motor vehicles and maintain parking privileges on the JHS campus will be required to sign a Drug Testing Policy General Authorization Form before obtaining parking privileges on the JHS campus. The method of collection, chain of procedure for substance abuse screening, method of placing participants in the pool for random drug testing, and recommendation for professional drug counseling will be identical to the current method used for testing of athletes. The consequences of a positive test(s) for students who operate motor vehicles and maintain parking privileges on the JHS Campus will differ.

CONSEQUENCES OF A POSITIVE TEST

First Violation: The principal shall immediately communicate to the parents or legal guardians of the student that a positive screen has been obtained. A meeting will be held with the student, parent or guardian, and the principal. The student will be recommended for counseling; any charges incurred will

be the responsibility of the parents. After a positive screen, the student will be screened each time a screening is administered.

Second Violation: After the confirmation of the second violation, the student will be suspended from operating a vehicle on campus for the remainder of the school year. The student will be recommended for counseling; any charges incurred will be the responsibility of the parents.

Third Violation: After confirmation of the third violation, the student will be suspended from operating a vehicle on campus for the remainder of his/her enrollment with the school.

- A. The board is committed to ensuring a safe school environment conducive to promoting a learning environment where students and staff can excel. STUDENT SEXUAL HARASSMENT - Policy 4.27

- A. The Jonesboro School District is committed to having an academic environment in which all students are treated with respect and dignity. Student achievement is best attained in an atmosphere of equal educational opportunity that is free of discrimination. Sexual harassment is a form of discrimination that undermines the integrity of the educational environment and will not be tolerated.
- B. Believing that prevention is the best policy, the district will periodically inform students and employees about the nature of sexual harassment, the procedures for registering a complaint, and the possible redress that is available. The information will stress that the district does not tolerate sexual harassment and that students can report inappropriate behavior of a sexual nature without fear of adverse

consequences. The information will take into account and be appropriate to the age of the students.

- C. It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment as defined in this policy. Any student found, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion.
- D. Sexual harassment refers to unwelcome sexual advances, requests for sexual favors, or other personally offensive verbal, visual, or physical conduct of a sexual nature made by someone under any of the following conditions:
 1. Submission to the conduct is made, either explicitly or implicitly, a term or condition of an individual's education;
 2. Submission to, or rejection of, such conduct by an individual is used as the basis for academic decisions affecting that individual; and/or
 3. Such conduct has the purpose or effect of substantially interfering with an individual's academic performance or creates an intimidating, hostile, or offensive academic environment.
- E. The terms "intimidating," "hostile," and "offensive" include conduct of a sexual nature which has the effect of humiliation or embarrassment and is sufficiently severe, persistent, or pervasive that it limits the student's ability to participate in, or benefit from, an educational program or activity.
- F. Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is not, sexual harassment will depend upon all of the surrounding circumstances. Depending upon such circumstances, examples of sexual harassment include, but are not limited to: unwelcome touching; crude jokes or pictures; discussion of sexual experiences; pressure for sexual activity; intimidation by words, actions, insults, or name calling; teasing related to sexual characteristics; or derogatory comments or name-calling based upon allegations referring to a person's sexual orientation or gender identification; and spreading rumors related to a person's alleged sexual activities.
- G. Students who believe they have been subjected to sexual harassment, or parents of a student who believes their child has been subjected to sexual harassment, are encouraged to file a complaint by contacting a counselor, teacher, Title IX coordinator, or administrator who will assist them in the complaint process. Under no circumstances shall a student be required to first report allegations of sexual harassment to a school contact person if that person is the individual who is accused of the harassment.

- H. To the extent possible, complaints will be treated in a confidential manner. Limited disclosure may be necessary in order to complete a thorough investigation. Students who file a complaint of sexual harassment will not be subject to retaliation or reprisal in any form.
- I. Students who knowingly fabricate allegations of sexual harassment shall be subject to disciplinary action up to and including expulsion.
- J. Individuals who withhold information, who purposely provide inaccurate facts, or otherwise hinder an investigation of sexual harassment shall be subject to disciplinary action up to and including expulsion.

SEARCH, SEIZURE, AND INTERROGATIONS– Policy 4.32

- A. The district respects the rights of its students against arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the district in order to promote an environment conducive to student learning. The superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable and individualized suspicion to believe such student or property contains illegal items or other items in violation of board policy or dangerous to the school community. School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

- B. School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult witness, however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.
- C. The superintendent, principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs.
- D. A school official of the same sex shall conduct personal searches with an adult witness of the same sex present.
- E. State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes against Children Division of the Department of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.
- F. If the district makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in *loco parentis* on student enrollment forms.
- G. In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control by court order, or person acting in *loco parentis* notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he/she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

- B. Consequences of inappropriate behavior will be handled in the following manner:

 - Second Offense:** 1 to 5 day suspension from the bus (call parent)
 - Third Offense:** 5 to 10 day suspension from the bus (parent conference)
 - Fourth Offense:** Suspension for remainder of the year (parent conference)

- C. Kindergarten students riding Jonesboro Public School buses must be accompanied to the bus stop each morning by a parent, guardian, or designated adult. Students are not to be left at the bus stop unattended. In the afternoon, students will not be allowed to exit the bus unless a parent, guardian, or designated adult is present to get the child. Students whose parents are **not** present will be returned to the school. The repeated return of students to the school will result in the loss of bus riding privileges. On the third (3rd) return, the student will be suspended off the bus for the five (5) days. On the fourth (4th) return, the student will be suspended off the bus for ten (10) days. On the fifth (5th) return, the student will be suspended off the bus indefinitely.

SUSPENSION FROM SCHOOL – Policy 4.30

- A. Students who are not present at school cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of a student from school. The board authorizes school principals or their designees to suspend students for disciplinary reasons for a period not to exceed ten (10) school days, including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs: at any time on the school grounds; off school grounds at a school-sponsored function, activity, or event; going to and from school or a school activity. A student may be suspended for behavior including, but not limited to that which:
 - 1. Is in violation of school policies, rules, or regulations;
 - 2. Substantially interferes with the safe and orderly educational environment;
 - 3. School administrators believe will result in the substantial interference with the safe and orderly educational environment; and/or
 - 4. Is insubordinate, incorrigible, violent, or involves moral turpitude.

- B. The school principal or designee shall proceed as follows in deciding whether or not to suspend a student.
 - 1. The student shall be given written notice or advised orally of the charges against him/her.
 - 2. If the student denies the charges, he/she shall be given an explanation of the evidence against him/her and be allowed to present his/her version of the facts; and
 - 3. If the principal finds the student guilty of the misconduct, he/she may be suspended.
- C. When possible, notice of the suspension, its duration, and any stipulations for the student's re-admittance to class will be given to the parent(s), legal guardian(s), or to the student if age eighteen (18) or older, prior to the suspension. Such notice shall be handed to the parent(s) legal guardian(s), or to the student if age eighteen (18) or older or mailed to the last address reflected in the records of the school district.
- D. Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as possible.
- E. It is the parents' or legal guardians' responsibility to provide current contact information to the district which the school shall use to immediately notify the parent or legal guardian upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:
 - 1. A primary call number
 - 2. The contact may be by voice, voice mail, or text message
 - 3. An email address
 - 4. A regular first class letter to the last known mailing address
- F. The district shall keep a log of contacts attempted and made to the parent or legal guardian.
- G. During the period of their suspension, students serving out-of-school suspensions shall not be permitted on campus except to attend a student/parent/administrator conference.
- H. During the period of their suspension, students serving in-school suspension shall not attend or participate in any school-sponsored activities during the imposed suspension nor shall the student participate in any school-sponsored activities.
- I. Students recommended for in-school suspension may be assigned to SUCCESS Achievement Academy for no more than 10 days.

- J. Students assigned to in-school suspension, out-of-school suspension or to SUCCESS Achievement Academy for either short- or long-term assignments will not be eligible to attend any school functions.
- K. Out-of-School suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board of Education.
- L. Out-of-School suspensions initiated by the superintendent may be appealed to the Board.

EXPULSION – Policy 4.31

- A. The Board of Education may expel a student for a period longer than ten (10) school days for violation of the district’s written discipline policies. The superintendent may make a recommendation of expulsion to the Board of Education for student conduct deemed to be of such gravity that suspension would be inappropriate, or where the student’s continued attendance at school would disrupt the orderly learning environment or would pose an unreasonable danger to the welfare of other students or staff.
- B. The superintendent or his/her designee shall give written notice to the parents or legal guardians (mailed to the address reflected on the district’s records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation.

SCHOOL WELLNESS POLICY – Policy 5.29

The health and physical well-being of our students directly affects their ability to learn. Childhood obesity increase the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the board of directors believes it is necessary to s strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The board of directors is keenly aware that it has taken years for this problem to reach its present level and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Arkansas Department of Education, but with the community and its residents, organizations and agencies. Therefore, the district shall enlist the support of the larger community to find solutions which improve the health and physical activity of our students.

Goals

In its efforts to improve the school nutrition environment, promote student health, and reduce childhood obesity, the district will adhere to the ADE Rules Governing Nutrition and Physical Activity Standards and Body Mass Index for Age Assessment Protocols. 16. Utilize the School Health Index available from the Center for Disease Control (CDC) to assess how well the district is doing at implementing this wellness policy and at promoting a healthy environment for its students.

Advisory Committee

To enhance the district's efforts to improve the health of our students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall be structured in a way that ensures age-appropriate recommendations are made that correlate to our district's grade configurations. The SNPAAC shall have the powers and responsibilities delegated to it by statute and rule and are incorporated into this policy by reference. The overarching goal of the committee shall be to promote student wellness by monitoring how well the district is doing at implementing this policy.
